BRAIN INJURY BASICS BRAIN FITNESS TRAINING:

PRESENTED BY DR. CHERYLE SULLIVAN

[Cheryle Sullivan MD](#), received her medical degree from Michigan State University College of Human Medicine. In 2002, a skiing accident caused a traumatic brain injury (TBI) that ended Dr. Sullivan's medical career. She lost her mother at age 61 to a fall related traumatic brain injury and in 2005 her father sustained a neck fracture and TBI in a fall. Dr. Sullivan now follows her passion presenting on topics related to falls and falls related injuries to the general public, medical providers and military staff and troops.
